GARDEN OF EARTHLY DELIGHTS

Running time: 103 minutes. Not rated (sex, nudity). At the Two Boots Pioneer Theater, Avenue A and Third Street.

LECH Majewski is hot. Hot, that is, for a director from Poland who makes difficult art-house movies.

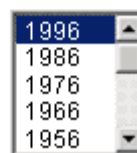

Last month, he received a retrospective at the esteemed Museum of Modern Art. Now his "Garden of Earthly Delights" (2004) is receiving a theatrical run.

Claudine, a dying London art historian, travels with her boyfriend to Venice, where she wants to spend her final days. That's about it for plot - but who cares?

The English-language film is all about stunning visuals (shot by 52-year-old Majewski, who also wrote the screenplay and some of the music) and a sizzling performance by Claudine Spiteri as the dying woman.

You're going to love this film and run out to see everything Majewski has directed.
